Summary

Confident and competent in the use of IT Software with a keen interest to demonstrate my technical problem-solving ability and leadership potential. Actively seeking employment opportunities in the information and communication technology sector where I can continue to expand my skills. Experienced in a customer-focused environment where I developed excellent communication and customer service skills, progressing to a Team Lead position.

Key Skills/ Technical IT skills

- Web Developer: **HTML, CSS, JavaScript**
 - Designed responsive websites apps like todo lists using libraries like **Bootstrap** and games using frameworks like **paper-full**
- Web Developer: **MongoDB, NodeJS**
 - Designed an application that allows you to add a place to rent. hosted in Heroku, I use different frameworks such as express.js and mongoose to code the backend and many npm packages to cover different functions in the app like authentication, connections with a cloud-based image and video management services and API to model the data simple, intuitive, and readable.
- Web Developer: **VueJS, Firebase**
 - Designed an application that allows you to chat, using the library **MaterializeCSS** to create a responsive app that gives a unified user experience.
- Git and GitHub
 - I use these tools to develop my personal projects either development-related or not. Repositories for things such as reports, personal development plans, all types of office documentation locally and for developer purposes to create personal projects and contribute to other projects.
- Operating Systems
 - Experience with all versions of Windows
 - capable to perform basic maintenance to a computer (installing Operate systems either Windows or Linux based systems)
- PC repairs
 - Replacement of hardware. (power supply unit, hard disk, SSD etc)
 - Installation of software (Antivirus, daily programs, operative system etc)

- OTHERS

- Excellent customer service and communication skills.
- Technical problem-solving ability.
- Leadership and negotiating skills.
- Logical and analytical.
- Fluent in Spanish and English.
